SPRING 2

What a Wonderful World!

DANE ROYD SCHOOL

Facts

The Earth's Surface

Land on the Earth varies from sandy, hot, dry deserts to lush, green rainforests to freezing lands of snow and ice.

The Earth is home to towering mountains.

As the human population grows, towns and cities that have been constructed by humans are also covering more of the planet.

Places

Children are being supported to understand their place in the wider world through the sharing of simple atlases, maps and globes in class. Using photos & videos, we hope to help Nursery to begin to appreciate the scale of the planet and the contrasting locations within it. our immediate environment
